Common

Title: Wärtsilä Valmarine - Supplier of ship automation and navigation systems

Description: Wärtsilä Valmarine is a major global supplier of ship automation and navigation systems. We work closely with our customers to develop innovative technical solutions that emphasise safety, quality and lifecycle costs. Our fully integrated ship control concept offering is based on this approach and provides unique multi-functionality, redundancy and reliability. Wärtsilä Valmarine focuses heavily on the cruise sector and is a market leader in ship automation for cruise vessels.
