### Common

Title: Aker BioMarine - Human and planetary health

Description: Aker BioMarine was created because of our strong belief in the positive health effects of krill. More than a decade later, our business continues to grow because we take care of the ecosystem we harvest in. To us, it makes no sense to take something out of the ocean to improve our health, if it simultaneously compromises the health of the ocean. Ensuring the well-being of the krill biomass and contributing towards a thriving Antarctic ecosystem are among our core priorities.
