Common

Title: GS-Piping System

Description: **Non-Welded
Piping for
Offshore**

The GS-Piping System is used in a wide variety of applications on all different types of offshore drilling and production installations. GS-Hydro has offshore experience from more than 200 drilling rigs and numerous gas platforms all around the world!

Wide Range of Installations

GS-Hydro services different offshore installations ranging from fixed platforms and

jack-up rigs to TLP's and semi-submersible rigs as well as SPAR's and FPSO's. With more than 25 years of experience in the rugged conditions of the North Sea, GS-Piping has also proven to be the ideal solution for supply, research and seismic vessels.
